[How to spot counterfeit bills](#)

There have been some [recent news reports](#) about counterfeit \$20 bills showing up at a Wal-Mart in Lee's Summit. If you're worried about you or your business unknowingly accepting fake cash, I urge you to check out our [Forgery Section's web page at WWW.KCPD.ORG](#). It has lots of tips on how to pick out a counterfeit and pictures of genuine versus counterfeit U.S. currency. Authorities aren't sure how wide-spread this particular counterfeiting operation is in the metro area, but it's best to know how to identify a fake so you don't end up short on real cash.

I personally know of an area business that just received a fake \$100 so they are in our area of Central Patrol.
